MOSS ROSE - THE GRAND OLD LADY

Mark Bettany, who provides superb assistance for the archive web site ascertaining changes of clubs for former players and from his research also provides information to enhance both present and past player profiles, has researched when the Premier League and English Football League clubs first played at their current grounds. Following the narrative is a table in date order covering all 92 clubs.

Over the years many opposing / visiting supporters (and a fair few Macc fans ©) have taken great delight in disparaging the Moss Rose, but what some of these 'new kids on the (breeze) block' won't appreciate is that, with Bury's promotion to EFL1 at the end of the 2018-19 season, the Moss Rose became the Grand Old Lady of EFL2.

After brief flirtations with the likes of Rostrons Field, Coare Street and Victoria Road, the Silkmen pledged their troth to the girl who hung out behind the Moss Rose pub on London Road in 1891.

Now, 128 years later, the relationship between the Silkmen and the Moss Rose is the longest in EFL2, and the 9th longest in The '92.

1878	Deepdale	Preston North End	EFLC
1882	Ewood Park	Blackburn Rovers	EFLC
1883	Turf Moor	Burnley	Premier
1884	Portman Road	Ipswich Town	EFL1
1885	Gigg Lane	Bury	EFL1
1888	Oakwell	Barnsley	EFLC
1889	Bramall Lane	Sheffield United	Premier
1889	Molineux Stadium	Wolverhampton Wanderers	Premier
1891	Moss Rose	Macclesfield Town	EFL2
1892	Goodison Park	Everton	Premier
1892	Anfield	Liverpool	Premier
1892	St James' Park	Newcastle United	Premier
1892	County Ground	Swindon Town	EFL2

To qualify this observation, Field Mill at Mansfield (pre-1860s) and Valley Parade, Bradford (opened 1886) have been around longer than the Moss Rose, but The Stags and The Bantams didn't hook up with them until 1919 and 1903 respectively.

Similarly, in the top flight, whilst Anfield was opened in September 1884 (hosting Everton), it has *only* been home to Liverpool since 1892.

As the original Football League was comprised mainly of teams from the North West and the Midlands, it is probably no great surprise that, with the exception of Ipswich Town's Portman Road (1884) and Swindon Town's County Ground (1892), the longest *relationships* are in the North and Midlands:

Of the 92 EPL / EFL grounds:

- 22 have been hosting their Club since the 1800s;
- 48 since the 1900s, and:
- 22 have been established this century.

Again this needs to be qualified as St Andrew's, Birmingham is included in the 1900s (1906 Birmingham City) and the 2000s (2019 Coventry City).

On the latter, not that we hold a grudge, but it is amazing to see how boundary changes continue in the Country, with St Andrew's now being in the *conurbation* of Coventry, just as the Priestfield Stadium, Gillingham was somehow in the conurbation of Brighton back in 1997-98!

Back in Macclesfield, though some plans for the wider Moss area were put forward some years ago, it doesn't seem as though any moves are in the pipelines in the short term, so the relationship – finances permitting - will continue for some time to come.
